

SWISS BLOCKCHAIN SCHOOL

BLOCKCHAIN TRAINING

Blockchain solutions training for Business leaders | Leukerbad

1-5 NOVEMBER 2021

PROPOSED TO YOU BY
SMD SECURITY PRINTING SÀRL

DISCOVER THE BLOCKCHAIN

Be part of the digitalisation movement and find the blockchain solutions adapted to your business. During 5 days and in small groups, acquire knowledge about this game changing technology.

The courses are presented by our team, and lectures will be presented by experts from around the world.

COURSE CURRICULUM

1

Module 1 : An Introduction to Blockchain Technology

Hypotheses for business, industrial and finance problems that may require blockchain technology.

2

Module 2 : Bitcoin and the curse of the double-spending problem

How to buy and protect your digital assets. Evaluation of a specific application of the blockchain technology that solves meaningful problems.

3

Module 3: Costless Verification: Blockchain Technology and the Last Mile Problem

Solutions to the last mile problem using blockchain technology and suitable, complementary technology.

4

Module 4: Bootstrapping Network Effects Through Blockchain Technology and Cryptoeconomics

The economic consequences of a reduction in two key costs enabled by blockchain technology.

5

Module 5: Using Tokens to Design New Types of Digital Platforms

Counterbalance benefits and costs for a business adding a token to its ecosystem.

6

Module 6: The Future of Blockchain Technology, AI, and Digital Privacy

10 scams to avoid when working in the Blockchain.

DISCUSSIONS AND ACTIVITIES

Find solutions and innovations for your company's problematics during the courses and through a project. During this exercise, you will analyze a blockchain-based project to address a business problem within your own context. The project will be presented the last day and challenged both by other participants and the team of experts.

EXPERTISE AND KNOWLEDGE

THE TEAM

EPFL graduated Engineer, Martin DEMIERRE
